Career Path Assignment

A Career Path is the route taken to arrive at a certain career. Interview two adults who you know (parent, family friend, teacher, etc.) to find out what route they took to arrive at their career.

1st subject:

Relation to individual:

Career:

- Years in position:

Educational Path

- Highest level of education:

- Degree title:

What career did they want to pursue when they were a child? Did this childhood career ever effect their eventual career path?

When they first started their journey, during their formal education years (starting end of high school), did they know what career they ultimately wanted to pursue?

At what point in their career path did they realized what career they wanted to pursue? How did this come about?

What previous jobs did they have before arriving at their present career?

Job	Years in position

If they could have started over again, would they have chosen the same career? Yes or no? Explain.
